## STATE INDIVIDUAL INCOME TAXES (footnotes)

Source: The Federation of Tax Administrators from various sources.

(a) 17 states have statutory provision for automatically adjusting to the rate of inflation the dollar values of the income tax brackets, standard deductions, and/or personal exemptions. Massachusetts, Michigan, and Nebraska index the personal exemption only. Oregon does not index the income brackets for \$125,000 and over. Because the inflation-adjustments for 2012 are not yet available in some cases, the table may report the 2011 amounts.

(b) For joint returns, taxes are twice the tax on half the couple's income.

(c) The personal exemption takes the form of a tax credit instead of a deduction

(d) These states use the personal exemption amounts provided in the federal Internal Revenue Code.

(e) In Alabama, the per-dependent exemption is \$1,000 for taxpayers with state AGI of \$20,000 or less, \$500 with AGI from \$20,001 to \$100,000, and \$300 with AGI over \$100,000.
